

My Erasmus in Wroclaw at the University of Lower Silesia was one of the best experiences in my life. Actually before than arrive there i have read some informations about the city in the Internet. Usually sentences was quite positive about city: gotik and lovely city, most of people are open minded and warmly etc... Poland itself is a wonderful country, with breath taking landscapes. The place to be for admirers of nature, like me.

When i arrived to Wroclaw i would say i met much more than this. The city was really open and so beautiful. There were a lot of events which people could join and enjoy especially on the spring term.

Firstly I went to University and there was an event to inform us about the University and the city and etc. There i met with my classmates and first i really felt there im an erasmus student.

Next day we all met at the main street of city and we visit particular places around city with great guides and we take a nice boat trip in Odra River. The organization was really awasome and benefit for us.

About classes, in the begining i found it a bit difficult cause of my english level but than it passed day by day. Teachers was really knowledgeable and they were trying to be benefit for us and you could feel it obviously. Especially some of teachers was really really so warmly and so kind. The teachers was makes me feel flexible in the class, i mean you could say your ideas and your wiew.

Well if I would like to talk about international Office, when you arrive there surely you will see people who really wants to help you in every case. I never hesitate to ask or go there to learn something or for documents. They are always waiting to help you with their genial face.

Finally I am very thankfull to all my teachers in the University of Lower Silesia and for Erasmus Office for their helps and support. I would like to say that my time in Wroclaw changed my view on very different aspects of life, broadening my horizon. I realized the world is much bigger than the one I used to know before I left on Erasmus. I learned how to handle situations which aren't easy on my own and became more mature and independent. Most important of all, I discovered myself, partly thanks to the people I met from different cultures, whom I'll never forget. Year that I spent in Wroclaw with the Erasmus program was the most beautiful year in my life. I would like to say if i had a chance to study in ULS and in Wroclaw I would not think any second. If you have a chance to study there you are the one of luckiest person. If you have a chance to choose ULS and Wroclaw for Erasmus or whatever my suggestion is JUST CHOOSE ULS. I bet you will not be regret! 😊
